**Notice:** Westford Public Schools are concerned with the safety and well being of all its students. During school hours a nurse is on duty to provide assessments, first aid, emergency care and medication administration. There is <u>no</u> nurse available during before-school and after-school programs and organized activities (e.g., sports, clubs). If an emergency arises, staff will activate the emergency medical system and the student will be transported to the nearest hospital. Note that after-school personnel cannot deliver medical procedures or obtain or administer medications.
